Ancient Egyptians

Egyptians were very interested in their houses, their families and in their work**.** **They** used to live in houses of mud bricks. They didn't use to build houses with stone because it was difficult to cut, shape and transport.

People of Egypt used to wear very few clothes. Because of the hot climate. Men used to wear only a skirt which was short and narrow. Women used to put on dresses with bands over the shoulders.

Ancient Egyptians were among the first to use herbs and drugs for curing diseases.

Ancient Egyptians used to store their food and water in huge pottery jars. To prepare food, they used pottery bowls which were put directly on the fire or in a clay oven. **Their** main foods were bread, beef, mutton and goose.
