Level: 3 m.s — May 2025

Duration :2h THE FINAL TERM ENGLISH EXAM

Text

Cheetah is a wild animal that lives in Africa and Southern Asia. It is a fast animal which can run 75 miles per hour. It runs quickly in wide areas where it hunts animals. Cheetah eats rabbits, birds, gazelles and other small animals.

Cheetahs are a part of the cat family but they are smaller than other big cats. They live for 8 years in nature but in the zoo they can live for about 10 years. These animals are shy and not very sociable with each other.

Nowadays, cheetahs are endangered because hunters kill them for their fur. These nice animals must be protected because they will extinct in the future. So, hunters must protect them soon and hunting must be prohibited by the state.

To end up, people must keep the environment clean and safe.
