FIRST TERM ENGLISH TEST

Level: 3MS

Dear Algerian friends,

My name is Juanita. I am a Mexican architect from Mexico city. I am 28 years old. Since my childhood, I dreamed of designing beautiful, sustainable buildings. Every day, I go to my office to work on new construction projects.

Life in Mexico is often busy. We work under pressure to finish projects, but I never give up. I am kind and hardworking. I love creating innovative spaces and telling their stories to the world. I am professional and dedicated architect.

I can speak Spanish and English, and I am learning Italian. I love my work, but I sometimes feel tired and stressed because of the demanding nature of my job. Sadly, many people don't understand the work we do — they only focus on the cost of construction.

Yours truly, Juanita
